

## 1 Sample

$\pi$  ratio of the length of the circumference of a circle to its diameter 1  
 $\sqrt{2}$  Pythagoras' constant 1  
 $\zeta(3)$  Apéry's constant 1

This section discusses  $\pi$ ,  $\sqrt{2}$  and  $\zeta(3)$ .

## 2 Another Sample

**1** single entity, unity 1  
 $\pi$  ratio of the length of the circumference of a circle to its diameter 1  
**0** nothing or nil 1

This section discusses 1,  $\pi$  and 0.

## Glossary

$\zeta(3)$  Apéry's constant 1  
**0** nothing or nil 1  
 $\sqrt{2}$  Pythagoras' constant 1  
 $\pi$  ratio of the length of the circumference of a circle to its diameter 1  
**1** single entity, unity 1
